

MATH, ARTS, SCIENCE ACHIEVEMENT CENTER

For High Achieving and Talented Youth

Miami-Summer 2017

MASA is a program that provides opportunities for high achieving and gifted students to be in a comfortable and safe environment with like-minded peers to comprehend, apply, explore, analyze, discover, and evaluate concepts while motivating one another. The organization provides an environment where students can challenge themselves and exercise their critical thinking skills. MASA nurtures the unique needs of every student while encouraging the development of our future scientists, mathematicians, writers, and thinkers to delve deeper and reach their true potential. Our programs offer students challenging educational opportunities through hands on activities and inquiry based instruction that allow them to develop their intellect, use higher cognitive skills to create and to invent.

June 19-23 (Grades 1-8 in Fall 2017)

Angry and Annoyed Birds (Grades 1-2) Join Red, Chuck and Bomb to see what new mischiefs the green Piggies are up to next. Build a pig airplane, walk on eggs, make a catapult and do much more.

Angry and Annoyed Birds (Grades 3-4) Build a boat and sail to Piggy Island or get launched on a sling shot to Piggy Island. Work with other adventurers to improve your math, science and problem solving skills.

Astronautics and Aeronautics (Grades 5-8) Help NASA explore the galaxies. Learn about momentum and propulsion and examine what makes things fly and go the fastest and the farthest.
