## COOPERATION

### VALUES MATTER

Learning to cooperate means that a person can think about and balance their own needs and wants with another person's needs and wants. True cooperation is a give and take between people that ends up with something they both agree on.

Cooperation is a skill that must be learned.

## Women's History Month

In March we celebrate Women's History Month. The purpose of Women's History Month is to call attention to the achievements of women, both past and present, in all facets of life including business, government, science, literature, the arts, medicine, and athletics. The national 2019 Women's History Month theme is "Visionary Women: Champions of Peace and Nonviolence."
